02	Production & Quality Management	Production job orders and quality assurance	LKR. 185,000

Total Development Cost: LKR. 395,000

Deployment & Infrastructure Setup Cost (Onetime)

No	Item	Description	Price
01	Server Setup	Initial cloud server configuration	LKR. 15,000
02	Database Deployment	PostgreSQL installation and configuration	LKR. 10,000
03	Security Configuration	SSL, firewall, and access control	LKR. 10,000

Total Deployment & Infrastructure Setup Cost: LKR. 35,000

Server & Hosting Cost (Estimated Monthly)

No	Service	Description	Price
01	Cloud VPS	Application & Database hosting server	LKR. 5,000
02	Maintenance	Server maintenance and monitoring	LKR. 3,000

helixaa

Total Server & Hosting Cost (Monthly): LKR. 8,000

Development Timeline

Phase	Description	Duration
Phase 1	System architecture and planning	2 weeks
Phase 2	Core module development	5 weeks
Phase 3	Testing and quality assurance	3 weeks
Phase 4	Deployment and training	1 week

Estimated Total Duration: 11 Weeks

Technology Stack

Backend: Spring Boot

Frontend: React.js

Security: JWT Authentication

Database: PostgreSQL

Containerization: Docker

Monitoring: Spring Boot Actuator

API Documentation: Open API

Payment Terms

Milestone	Payment
Project Start	30%
Mid Development	50%
Project Completion	20%
